DIANA HEARS

TALK ON THE TOWN... Is it the splits for the beloved David Schoumachers? ... Margaret Bush, the Veep's daughter-in-law, is the latest to bound aboard that yuppiest Republican real estate firm of them all, Wintermute, Jackson and Donatelli. (Margaret, recall, is hitched to Marvin, the Bush Boy big in Shearson-AmEx) ... Senators pushing a pay-raise for Bill Casey, CIA meister, up to Cabinet level of \$86,200. (He only hauls in \$75,100 right now) ... And a sweet note on the tender gender. Chums at the American Newswomen's Club party for new Prez Marj Skinker yesterday were tickled to discover it was Sarah McClendon's 75th b'day, too. So they baked her a cake. They don't do that at the *National Press Club*, darlings. They don't even make you spud soup and push you in the river. Food for thought, here. And try again tomorrow.
